I am happy to recommend the Emage Image Pro® Hybrid as a wonderful "tool" to help you and your patients understand how our cosmetic therapies can really make a difference.

Enhancements recently made have increased the resolution of the device and there are more options at your disposal to capture characteristics that until now were difficult to see on the screens. It is user friendly and been something that we have successfully incorporated into our practice modules.

Michael H. Gold, M.D.  
Medical Director

"The Image Pro® is a superb skin analysis system. It is clearly a must for anyone seeking a state-of-the-art skin imaging system that is highly effective, provides reproducible images, and is easy to use.

"I have been extremely impressed with the quality of my Image Pro®. It delivers everything promised, as does Emage; they have never let me down. You cannot ask for a more top-quality product from a quality company."

Mark S. Nestor, MD, PhD  
Director, Center for Cosmetic Enhancement  
Aventura, FL
